# Atrium Animal Hospital

## PATIENT "DROP OFF" QUESTIONAIRE –GENERAL UNWELL PATIENT

*To better serve you and your animal friend, please fill this form out and bring it with you when you drop off your animal friend. Thank you.*

Name: _____ Date: _____

1. What are the symptoms?

2. How long have they been going on?

3. Was the onset of the symptoms gradual or sudden and acute?

4. What current medications are you giving your animal?

5. Is there any history of these kinds of symptoms?

A typical data base workup will include a physical exam, blood work, urinalysis, and possibly outside lab work, heartworm test, vaccine tests, and medications. The doctor will determine the extent of the diagnostics needed based on your animal's history and clinical signs.
